More information:

Please join us for a special event hosted by the University of Minnesota Global Medicine as a pre-course for the North American Refugee Health Conference (August 5-7, 2024). This is a one-day course on parasites for refugee health and mobile populations. The day will include lectures and interactive expert-guided laboratory clinical cases.

Planning Committee Members: Patricia Walker, William Stauffer, Megan Shaughnessy, Nathan Bertelsen, Nasreen Quadri, Sarah Sponsler & Mark Enzler
